

Ontario Vehicle Innovation Network

Northern Regional Technology Development Site

NORCAT | BEV Conference – May 26th, 2022
Sudbury, Ontario

SKILLS TRAINING FOR THE FUTURE

Founded in 1995, NORCAT is a private, non-profit organization dedicated to developing programs, services, and resources that provide our clients with the skills, competencies, and confidence to have meaningful and sustainable careers.

We are the **global leader** in skilled labour **training** and **development**

We are the global **“one-stop shop”** for all that is the **future of mining** technology and innovation

We work with community partners to help start and accelerate the **growth of innovative companies** that will drive future economic and **social prosperity for Canada**

We have a **dynamic** and **exciting workplace** that fosters collaboration, continuous learning and development, and a desire to achieve excellence and make an impact

We celebrate and promote our success and leadership by listening, highlighting, and sharing the stories of our **client’s success**

The Northern Regional Technology Development Site Partners

An integrated, pan Northern Ontario collaboration that can **“hit the ground running”** by leveraging and building upon existing programs, services, and resources within Northern Ontario

Our Northern Ontario collaborative can meaningfully contribute to Ontario’s Automotive and Mobility Sector Strategy alongside the province’s Critical Mineral Strategy

Support the identification, development, testing, and demonstration of emerging technologies developed by start-ups and SME's that enhance the exploration, extraction, processing, and refining of critical minerals found across Northern Ontario

Priority #1

A man with a beard and glasses, wearing a dark suit jacket over a striped shirt, stands in a workshop. He is positioned next to a white vehicle with yellow and green accents. The vehicle has "MX50-eMV" printed on its side. The background shows various workshop equipment and a chalkboard.

Priority #2

Provide start-ups, SME's, and other stakeholders access to applied research resources, specialized product development equipment, and hands-on testing / demonstration facilities to support and expedite commercialization opportunities for BEV-related technologies

Priority #3

Provide access to co-location incubator workspaces, specialized business mentorship and technical advisory services, talent connections, angel and venture capital investors, government and industry partners, customers, and networks that can accelerate the growth of BEV supply chain related start-ups / SME's

SEPTEMBER 26-29, 2022

NORCAT Underground Centre | Sudbury, Ontario, Canada

The world's first technology exhibition
in an underground operating mine.
